

# Bluetooth® Pantograph Keyboard TK-FBP030ECBK User's Manual

Thank you for purchasing the ELECOM Bluetooth® Pantograph Keyboard. This product employs an English keyboard layout and Bluetooth® wireless technology. This manual describes the operating instructions and safety precautions for using this product. Ensure that you have read this manual before using the product. After reading this manual, store it somewhere safe for future reference.

\* Except in certain cases, the TK-FBP030ECBK is referred to as "this product" in this manual.

## ■ Meaning of symbols

	<b>DANGER</b>	Not following the cautions described here poses a high degree of danger which may result in death or serious bodily injury from fire or electric shock.
	<b>WARNING</b>	Failure to observe precautions may result in serious personal injury or death due to fire, electric shock, or other causes.
	<b>CAUTION</b>	Failure to observe precautions may result in personal injury due to electric shock or other causes, and may damage other equipment.

- Prohibited action
- Mandatory action
- Situation that needs attention
- Notes and reference information

## Safety Precautions

Observe these precautions carefully to avoid personal injury, damage, fire, and other problems.

	<b>DANGER</b>	Always use the charging cable supplied by ELECOM, and follow the charging procedure as instructed. Charging using a cable or procedure other than instructed can lead to battery overheating, leaking, or explosion.
		Do not tamper with or attempt to take apart the product. This may result in fire or electric shock.
		Do not use this product if it is leaking. If the internal battery is leaking, immediately stop use of the product. This can pose a risk of overheating and/or damage.

## Part Names

### Function key

Enable to adjust the system volume or operate iTunes, etc by pressing the [F1] to [F7] key while pressing down the [Fn] key.

**Q Search** (iPad2, iPad, iPhone, iPod touch only)  
Displays the search screen and allows you to search for a file or image.

### ◀◀ To previous track

When you press this button during playback of music or other media, you move to the previous track. \*

### ⏸/|| Playback/Pause

Plays back media such as music. When you press this button during playback, playback is stopped temporarily. \*

### ▶▶ To next track

When you press this button during playback of music or other media, you move to the next track. \*

### 🔇 Mute

Turns off all output sound for the system. Press again to take off mute.

### 🔊 Volume -

Decrease the system volume.

### 🔊 Volume +

Increase the system volume

\* When a program such as iTunes is active

### [Fn] key (Function key)

While the [Fn] key is held down, the functions indicated in on the bottom of other keys can be used.

are shown as an explanation, and are not actually displayed.

**Charging indicator lamp**

- Lights red when charging.
- When charging is complete, lamp turns off.

**Connection/battery level indicator lamp**

- Flashes blue when the keyboard is in a pairing standby state.
- Flashes red when battery level is low.

**CONNECT button**

**Power switch**

**Charging connector**

**Home key**

Works the same as the Home button on an iPad2, iPad, iPhone, or iPod touch.

**Space bar**

- Inserts a space.
- Converts characters when using two-byte fonts.

**Jpn, Eng key**

Switches the character input mode for the iPad2/iPad/iPhone/iPod touch to  
[Eng] English input or  
[Jpn] Japanese input.

## Cautions for Wireless Equipment

This product is wireless equipment using the entire range of the 2.4 GHz band and it is possible to avoid the band of mobile object identification systems. GFSK is used for the radio wave method. The interference distance is 10 m.

The 2.4 GHz band is also used by medical equipment, and wireless LAN equipment conforming to the IEEE 802.11b/11g/11n standard.

- Before using this product, check that there are no other "radio stations" operating nearby.
- If electromagnetic interference occurs between this product and other "radio stations", move this product to another location or stop using this product.

- Other "radio stations" refer to industrial, scientific and medical devices using the 2.4 GHz band like this product, other radio stations of this type, licensed radio station premises for mobile object identification system that is used in factory production lines, certain non-licensed low power radio stations and amateur radio stations.

## WARNING

- Do not use this product with any device that may have a serious impact in the event of a malfunction. There are rare cases where an external radio wave at the same frequency or the radio wave emitted from a mobile phone causes this product to malfunction, slow down, or fail to operate.
  - Do not use this product in a hospital or other locations where the use of radio waves is prohibited. The radio waves of this product may affect electronic and medical devices (e.g. pacemaker).
  - The use of a wireless keyboard in an aircraft is prohibited by aviation law because doing so may interfere with flight safety. Turn off the keyboard before boarding an aircraft and do not use it in the aircraft.
- \* ELECOM is not liable for any accident or social damages incurred by the failure of this product.

## Package Contents

This product's packaging contains the items listed below. Before using the product, check that all items are present. We make every effort to ensure that all products are packaged correctly. However, in the event that an item is missing or damaged, contact the retailer from whom you purchased the product.

- Keyboard x1
- USB charging cable (USB A⇔mini B 0.9 m) x1
- iPad 2 case x1
- User's Manual x1

## Initial Setup Procedure

When using this product for the first time, operate and configure this product and the PC in the order shown below.

- To use this product the connected device must support the Bluetooth HID profile or have a Bluetooth adapter that supports the HID profile connected.

### 1 Charging the Keyboard

### 2 Turning on the Keyboard

### 3 Pairing the Keyboard with a Connected Device

\* Refer to the back of this sheet.

## 1 Charging the Keyboard

The keyboard must be charged before using for the first time, or if you have not used it for an extended period of time. Charge with the included USB charging cable.

- Approx. 3 hours of charging time are required for full charge. If the lamp doesn't turn off after 3 hours, remove the USB charging cable and stop charging one time. Charging for more than 3 hours can result in shortening of the battery life, or device malfunction.

### 1 Connect the included USB charging cable (mini-B connector) to the connector on the right side of this product.

### 2 Connect the included USB charging cable (A connector) to the USB port of the PC.

- Carefully check the orientation of the connector and the place where you will connect the USB connector.

### 3 Turn on the PC.

The charging indicator lamp lights red and charging begins. When charging is complete, the lamp turns off.

- The charging is not completed after the specified charging time, stop charging. Continuing to charge more over the set time may lead to battery leakage, overheating, damage, or fire.

## 2 Turning on the Keyboard

Turn on the keyboard to use it.

### 1 Slide the power switch to the ON position.

The connection/battery level indicator lamp lights blue for about 3 seconds.

- When not using the product, turn the keyboard off to save battery power. Slide the power switch to the OFF position.

## 3 Pairing the Keyboard with a Connected Device

To connect this product to a connected device using Bluetooth, you need to pair the product with the connected device.

- Pairing involves registering Bluetooth devices (in this case, this product and iPhone/iPad/iPod touch) with each other, and authorizing a connection with a registered device.
- This product supports multi-pairing, which allows multiple Bluetooth devices to be recorded in memory. (Maximum of four) Second to fourth devices can be paired by registering each device and then performing the same pairing procedure.
- If the pairing procedure is performed when four devices have already been registered, settings for the device that was first paired are deleted.

## Using iPad2/iPad/iPhone/iPod touch

\* The instructions below are based on iPad2 (iOS 4.3) user interface. The procedure is the same for other models.  
\* When using iPhone 3GS or 3G iPod touch, you must update the software to iOS 4.0 or later.  
For instructions on updating software, refer to iPhone 3GS or 3G iPod touch manual.  
\* This product cannot be used with iPhone 3G or with first and second generation iPod touch.

### 1 Touch [Settings].

### 2 Touch [General].

### 3 Touch [Bluetooth].

### 4 While the device is searching for other devices, press the CONNECT button on this product.

The connection/battery level indicator lamp flashes during the pairing procedure and turns off when the procedure is complete (step 7).

CONNECT button

### 5 Touch [ELECOM TK-FBP030 Not Paired].

- If iPhone 3GS or iPod touch cannot find the keyboard, check that the software has been updated to iOS 4.0 or later.

### 6 Use this product to enter the PIN code that displays on the screen.

Enter the PIN code using the keyboard numerical keys, and press the "Enter" key.

- If the PIN code was not entered correctly, the screen shown to the right will display. Touch "OK", and repeat from step 3.

### 7 Connection/battery level indicator lamp turns off.

Pairing is completed successfully when [ELECOM TK-FBP030] is shown as [Connected].

You can now use the keyboard.

If connection fails  
Connection may fail depending on iPad/iPhone/iPod touch status. In such cases, re-connect by following the procedure below.

### 1 Touch [Settings].

### 2 Touch [General].

### 3 Touch [Bluetooth].

### 4 Touch [ELECOM TK-FBP030 Not Connected].

### 5 Connection/battery level indicator lamp turns off.

Reconnection is completed successfully when [ELECOM TK-FBP030] is shown as [Connected].

### 3 Pairing the Keyboard with a Connected Device

#### When using Mac OS X

##### ■When using Mac OS 10.6.x, 10.7.x

**1 From the Bluetooth menu, click [Set up Bluetooth Device...].**  
The Bluetooth Setup Assistant is displayed.

If the Bluetooth menu is not displayed, from the Apple menu, click [System Preferences]. When the [System Preferences] window is displayed, click [Bluetooth], and then click **[+]** on the [Bluetooth] window.

**2 Press the CONNECT button for 1 sec. or more.**

The connection/battery level indicator lamp flashes during the pairing procedure and turns off when the procedure is complete (step **5**).

If a message saying that registration failed is displayed, check that this product is turned on, and then click **[Continue]**.

**3 Select [ELECOM TK-FBP030], and click [Continue]**

The passkey is displayed on the screen.

**4 Use this product to enter the passkey that displays on the screen.**

Enter the passkey using the keyboard numerical keys, and press the "Enter" key.

**5 Click [Quit]**

If a message saying that registration failed is displayed, check that this product is turned on, and then click **[Continue]**.

**5 Select [ELECOM TK-FBP030], and click [Continue]**

The passkey is displayed on the screen.

**6 Use this product to enter the passkey that displays on the screen.**

Enter the passkey using the keyboard numerical keys, and press the "Enter" key.

**7 Click [Quit]**

When registration is completed successfully, [ELECOM TK-FBP030] appears in the [Bluetooth] window.

If the keyboard setup assistant cannot detect the keyboard, click **[OK]** and select [ANSI] from the list of keyboards that is displayed on the screen. Then click **[Done]**.

You can now use the keyboard.

#### Using the iPad2 case

The included iPad2 case can be used as a stand with iPad2 placed inside and oriented horizontally.

Assemble as shown below to use the stand.

**1 Remove the stopper and open the keyboard storage compartment.**

**2 Fold back the keyboard cover, and insert the iPad2 into the iPad2 storage compartment.**

**3 Stand the iPad2 storage compartment and adjust the surface fastener.**

**4 Set the keyboard into the keyboard storage compartment and type from this product.**

##### ■When closing the case

When closing the case, be sure to follow the procedure as shown. Otherwise there is a risk of damaging the iPad2.

**1 Remove the iPad2 storage compartment from the surface fastener, and keep it open along the horizontal plane.**

**2 Cover the keyboard with the keyboard cover.**

**3 Close the keyboard storage compartment.**

**4 Fasten the stopper.**

#### Troubleshooting

##### When the keyboard does not work correctly

###### ■When text cannot be entered or keyboard does not work/is unstable

- Check that this product and the connected device's Bluetooth function or Bluetooth adapter are turned on.
- Check pairing status to ensure that this product is paired correctly with the connected device and that pairing has not been cancelled.

- The connection/battery level indicator lamp flashes green during the pairing procedure and turns off when the procedure is complete.
- For details on the PC's Bluetooth function and Bluetooth adapter, refer to the relevant instruction manuals. Alternatively, contact the manufacturer.

- The connected device and the keyboard are too far apart or there is a possibility that the connected device is facing in a direction from which it cannot receive radio signals.

Adjust the position of the connected device.  
The operable range of this product is the area within a circle with a radius of 10 m from the connected device. Depending on the usage environment, the keyboard may not operate even when it is within approximately 10 m of the connected device. In such cases, move the keyboard closer to the connected device until operation stabilises.

- When using this product on a metallic surface such as a steel desk, radio wave outreach may be shortened. In such cases, move the keyboard closer to the connected device until keyboard operation stabilises.
- Interference may occur if multiple units of this product are used together or if this product is used with other wireless devices. In this case, change the channel of other wireless devices.
- If battery level becomes low, mouse operation may become unstable. Refer to "Charging the Keyboard" on front page opposite to charge the battery.
  - If internal battery level becomes low, the connection/battery level indicator lamp begins flashing red.
  - When not using the product, turn the keyboard off to save battery power.

##### Internal battery troubleshooting

###### ■Charging lamp does not turn on when charging.

- Start up the PC if it is not turned on.
- If the PC is in stand-by mode, take it out of stand-by.
- The PC USB port may not output a sufficient amount of power for charging. Try disconnecting the product from the USB port that it is connected to.

###### ■Charging takes longer than the specified charging time.

- If the temperature is too high or too low when charging, charging may not perform correctly. Charge in an environment between 5 and 40°C.

###### ■Internal battery only lasts a short time

- If the internal battery can only be used for a short time even when fully charged, this is the condition of the battery life.

#### Basic Specifications

Product name	Bluetooth® Pantograph Keyboard
Article No.	TK-FBP030ECBK
Supported devices	•Devices that support the Bluetooth® HID profile •Mac OS X (10.5 to 10.5.8, 10.6 to 10.6.7) •iPad2, iPad, iPhone 4, 4G iPod touch •iPhone 3GS and 3G iPod touch (32GB/64GB) with software updated to iOS 4.0 or later * Cannot be used with iPhone 3G or first and second generation iPod touch. * Depending on the model of the device being used, the assigned function for various keys and the actual functions which they perform when pressed may differ.
Connection method	Bluetooth® wireless
Compliant standard	Bluetooth® v2.0 Class 2
Profile	HID (Human Interface Device)
Radio frequency	2.4 GHz bandwidth
Radio wave method	GFSK modulation
Radio wave outreach	Non-magnetic substance (e.g. wooden desk): Approx. 10 m Magnetic substance (e.g. metal desk): Approx. 3 m * Values indicated are those obtained by ELECOM and are not guaranteed.
No. of keys	75 (English layout)
No. of function keys	10
Key type	Pantograph
Key pitch	17.4 mm
Key stroke	1.7 mm
Dimensions	Keyboard 234.8 (W) x 124.4 (D) x 10.7 (H) mm (Not including stand) Case 245.0 (W) x 210.0 (D) x 35.0 (H) mm (When iPad2 and keyboard installed)
Weight	Approx. 165 g * Not including cable
Operating temperature/humidity	5 to 40°C, 90% RH max. (no condensation)
Storing temperature/humidity	-10 to 60°C, 90% RH max. (no condensation)
Supported batteries	Rechargeable battery type: Lithium-Ion (internal battery in this product)
Battery amount	240 mAh
Charging time	Approx. 3 hours
Operating time	Approx. 2 week operation time (when fully charged) * Values indicated are those obtained by ELECOM and are not guaranteed.
