

MouseAssistant

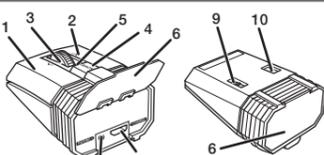

elecomus.com/web/mouse-assistant/

Download "ELECOM Mouse Assistant" from the ELECOM website to use its button assignment and high-speed scrolling functions.

Name and function of each part

Mouse

- 1 Left button
- 2 Right button
- 3 Tilt wheel

You can scroll horizontally by tilting the wheel to the left or right.

To use the horizontal scroll function on Windows®, ELECOM Mouse Assistant must be installed.

- 4 "Back" button

Operates the "Back" button on the Web browser.

To use the "Back" button on your Macintosh, it is necessary to install the "ELECOM Mouse Assistant".

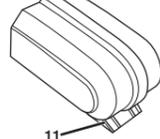

- 5 LED light

During pairing standby state, the LED blinks green.

Turns on in red when charging.

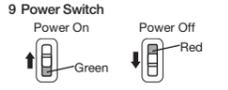

Turns on in green for a fixed period of time when the power is turned on. When remaining battery becomes low during use, the LED blinks red.

Cap with clip

- 6 Connector cover
- 7 Micro USB connector for charging
- 8 Pairing button
- 9 Power Switch

- 6 Connector cover
- 7 Micro USB connector for charging
- 8 Pairing button
- 9 Power Switch

- 10 Optical sensor

Please note that looking directly into the sensor light may hurt your eyes.

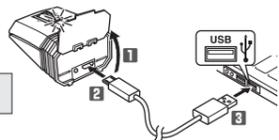

- 11 Clip

Clip it to your bag, breast pocket, laptop, etc.

When clipping the mouse to your laptop, please be careful not to scratch the casing or the LCD screen of your laptop.

1 Charging

- 1 Open the connector cover.
- 2 Connect the USB [micro-B] connector of the included USB charger cable to the charging micro USB connector of the product.
- 3 Connect the USB [A] connector of the USB charger cable to the USB port on a PC.

Be sure to sufficiently check the connector orientation and the insertion location.

- 4 If the PC is not on, turn it on.

The LED light turns on in red, and charging begins. When charging is finished, this light will turn off.

If the LED lamp does not stop blinking even after the prescribed charging time (approximately 3.5 hours), remove the charging USB cable and stop charging for the moment. Otherwise, this can cause heating, explosions or fires.

3 Pairing with a PC

- Pairing involves registering Bluetooth® devices (in this case, this product and your device) with each other, and authorizing a connection between them.
- This section covers Windows® and Macintosh standard Bluetooth® functions. Depending on your device or Bluetooth® adaptor, unique Bluetooth® functions may be used. Please read the respective manuals for each function.
- Please carry out the pairing operation using your current mouse or touchpad on your device.

Windows® 10

- 1 Click on the "Start" button on the lower left of the screen, and click on the "Settings" icon.

- 2 Click on "Devices" on the "Settings" screen.

- 3 Click on "Bluetooth & other devices", and click on "Add Bluetooth or other device".

- 4 Click on "Bluetooth".

- 5 When the "Add a device" window appears, use a pointed item to press on the pairing button of the device for 2 to 3 seconds, and then release.

- 6 Click on "CAPCLIP PRO" to start pairing.

- 7 When it changes to "Connected", click on "Done".

- 8 This product is added to "Mouse, keyboard, & pen", displays "Connected" and pairing is complete.

macOS Catalina (10.15)

- 1 From the Apple menu, click "System Preferences..." to display the system environment settings screen.

- 2 Click "Bluetooth" to display the "Bluetooth" environment settings screen.

- 3 When searching for the device, use a pointed item to press on the pairing button at the bottom of the device for 2 to 3 seconds, and then release.

Pairing mode is activated, and the LED light blinks green.

- 4 Select "CAPCLIP PRO", and click "Connect" to start pairing.

- 5 Pairing is complete when the "Connected" pops up on the screen, and the status of the "CAPCLIP PRO" is "Connected".

When keyboard setup assistant appears
Depending on the environment, "Keyboard Setup Assistant" may appear.

In this case, click the "Close" button on the top left to end "Keyboard Setup Assistant". There is no issue here.

2 Turning the Power On

- 1 Slide the power switch to the ON position (the green side).

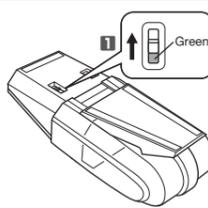

The LED light is lit green for a fixed time.

When remaining battery is low, the LED blinks red for a fixed time.

Power-saving mode

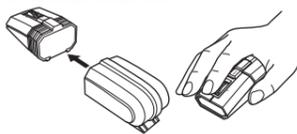

When the mouse is left untouched for a fixed period of time while the power is ON, it automatically shifts to power-saving mode. The mouse is released from the power-saving mode when it is touched.

Mouse operation may be unstable for a few seconds after returning from the power-saving mode.

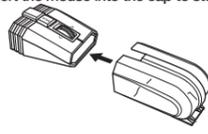

When using the mouse

- 1 Attach the cap to the rubber at the back end of the mouse before use.

Storing the mouse

- 1 Insert the mouse into the cap to store it.

- 2 You can clip it to your bag, breast pocket or PC and carry it around.

Specifications

Supported OS	Windows® 10, Windows® 8.1, macOS Catalina(10.15), OS13.5/iPadOS13.5, Android OS 7 to 10 (Updating the OS or installing a service pack may be necessary.) * Compatibility information was retrieved during operation confirmation in our verification environment. There is no guarantee of complete compatibility with all devices, OS versions, and applications.	Dimensions (W × D × H)	When in use: Approximately 1.7" × 4" × 1.38" When stored: Approximately 1.7" × 2.5" × 1.38"
Resolution	1600 dpi	Weight	Approximately 0.14lb *Including the battery
Compatible standard	Bluetooth 5.0 Class2	Operational temperature/humidity	41°F to 104°F/ up to 90%RH (without condensation)
Profile	HOGP (HID Over GATT Profile)	Storage temperature/humidity	14°F to 140°F/ up to 90%RH (without condensation)
Radio frequency	2.4 GHz band	Battery	Built-in lithium-ion rechargeable battery (the battery cannot be removed or replaced)
Radio wave method	GFSK	Operating time	Guidelines when used with a fully charged battery Continuous operation time: Approx. 14 hours Continuous standby time: Approx. 26 days Estimated usage time: Approx. 24 days (The usage time is estimated given a mouse operation percentage of 5% of the 8 hours per day spent operating a PC.)
Radio wave range	Magnetic surfaces (such as steel desks): approximately 3 m Non-magnetic surfaces (such as wooden desks): approximately 10 m * These are test values in company environment and are not guaranteed.		

Safety Precautions

- Prohibited action
- Mandatory action
- Situation that needs attention

DANGER

Please use the included charging cable, and perform the charging operation as directed by ELECOM. Using a charging cable other than the one provided, or not properly following the charging operation directions, may result in overheating, leakage, or explosion. Do not tamper with or attempt to take apart the product. This may result in fire or electric shock.

Do not use this product if it is leaking. If the internal battery is leaking, immediately stop use of the product. This can pose a risk of overheating and/or damage.

Immediately stop using this product if you notice anything unusual. Do not use this product if you notice a leaking battery, odd color changes, warping, or any other abnormalities. Continuing to use the product under these conditions may result in overheating or explosion.

If a liquid substance from this product comes into contact with any part of your body or clothing, immediately flush and wash the contacted area with clean water.

Contact between your skin and any liquid inside the internal battery may result in skin damage.

In the case that liquid from the internal battery enters your eyes, do not rub, as this may cause loss of vision. Immediately flush the contacted area with clean water and seek treatment from a physician as soon as possible.

Only use this product at the specified rated voltage. Using this product outside of the specified rated voltage range may result in overheating, electric shock, or injury.

If a foreign object (water, metal chip, etc.) enters the product, immediately stop using the product, and then turn the product off. Continuing to use the product under these conditions may cause a fire or electric shock.

If an abnormally small amount of smoke or an unexpected smell from the product, immediately stop using it and turn the power off. When charging, disconnect the included cable from the USB power supply, such as a USB AC adapter.

After doing this, contact the retailer from whom you purchased the product. Do not drop or hit this product.

If this product is damaged, immediately stop using the product and turn the mouse body off.

If you continue to use the product under these conditions, it may cause a fire or electric shock.

Do not attempt to disassemble, modify or repair this product by yourself, as this may cause a fire, electric shock or product damage.

If you continue to use the product under these conditions, it may cause a fire or electric shock.

Do not put this product in fire, as the product may burst, resulting in a fire or injury.

Do not place this product in any of the following environments:

- In a car exposed to sunlight, a place exposed to direct sunlight, or a place that becomes hot (around a heater, etc.)
- In a moist place or a place where condensation may occur
- In an uneven place or a place exposed to vibration
- In a place where a magnetic field is generated (near a magnet, etc.)
- In a dusty place

CAUTION

Do not place this product in any of the following environments:

- In a car exposed to sunlight, a place exposed to direct sunlight, or a place that becomes hot (around a heater, etc.)
- In a moist place or a place where condensation may occur
- In an uneven place or a place exposed to vibration
- In a place where a magnetic field is generated (near a magnet, etc.)
- In a dusty place

CAUTION

Do not place this product in any of the following environments:

- In a car exposed to sunlight, a place exposed to direct sunlight, or a place that becomes hot (around a heater, etc.)
- In a moist place or a place where condensation may occur
- In an uneven place or a place exposed to vibration
- In a place where a magnetic field is generated (near a magnet, etc.)
- In a dusty place

This product does not have a waterproof structure. Use and store this product in a place where the product body will not be splashed with water or other liquids. Rain, water mist, juice, coffee, steam or sweat may also cause product damage.

Do not look directly at the light from the optical sensor. Doing so may lead to eye damage.

Only use this mouse with PCs and video game systems.

Do not use this product with any device that may significantly be affected if the product were to malfunction.

If this product is used on a transparent surface, such as glass, or a highly reflective surface, such as a mirror, the optical sensor will not function correctly and mouse cursor movement will become unstable.

When you no longer need to use this product and the battery, be sure to dispose of it in accordance with the local ordinances and laws of your area.

Cautions for Wireless Equipment

This product is wireless equipment using the entire range of the 2.4 GHz band and it is possible to avoid the band of mobile object identification systems. GFSK is used for the radio wave method. The interference distance is 10 m. The 2.4 GHz band is also used by medical equipment, Bluetooth, and wireless LAN equipment conforming to the IEEE802.11b/11g/11n standard.

Before using this product, check that there are no other "radio stations" operating nearby.

If electromagnetic interference occurs between this product and other "radio stations", move this product to another location or stop using this product.

Other "radio stations" refer to industrial, scientific and medical devices using the 2.4 GHz band, as this product does, other radio stations of this type, licensed radio station premises for a mobile object identification system that is used in factory production lines, certain non-licensed low power radio stations and amateur radio stations.

WARNING

Do not use this product with a device that may have a serious function or influence. There are rare cases where an external radio wave at the same frequency or the radio wave emitted from a mobile phone causes this product to malfunction, slow down, or fail to operate.

Do not use this product in a hospital or other locations where the use of radio waves is prohibited. The radio waves of this product may affect electronic and medical devices (e.g. pacemakers).

The use of a wireless mouse in an aircraft is prohibited by aviation law because doing so may interfere with flight safety. Turn off the power of the mouse body before boarding an aircraft and do not use it in the aircraft.

ELECOM is not liable for any accident or any indirect or consequential damage incurred due to the failure of this product.

Limitation of Liability

In no event will ELECOM Co., Ltd be liable for any lost profits or special, consequential, indirect, punitive damages arising out of the use of this product.

ELECOM Co., Ltd will have no liability for any loss of data, damages, or any other problems that may occur to any devices connected to this product.

FCC ID: YWO-M-CCP1BB
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. Such modifications could void the user's authority to operate the equipment. In order to make improvements to this product, the design and specifications are subject to change without prior notice.
